The project aims at achieving a better quality in the existing terminology collections through the further development of specific tools and by providing general guidelines for terminology management workflows on the basis of existing best practices. In this way, LISE is meant to help terminology managers in public institutions as well as private service providers and companies improve the quality of their terminology collections in legal and administrative domains.

## Suggestions

The European Association for Terminology is a non-profit professional organisation for the terminology sector in Europe. It is designed to further plurilingualism through terminology, to provide a European platform for promoting and professionalising terminological activities and improving awareness of them, and to liaise and cooperate actively with relevant organisations, associations and institutions.

Do not hesitate to send us comments or suggestions that could help us accomplish our mission or that could draw our attention to any forthcoming event or activity. We would be pleased to include them in the next issue as well as in our agenda.
