The guidelines are now available for download on the LISE project website: www.lise-termservices.eu/downloads or at EURAC.

Circus Terminology

TERMCAT offers a new terminology which gathers about three hundred terms related to the circus specialties of acrobatics, aerials and balancing. Each term offers the denomination and definition in Catalan and equivalents in Spanish, French, English and, in some cases, Italian and German.

The work offers a selection of terms from the *Diccionari de circ*, developed by TERMCAT with the support of the Catalan Government Ministry of Culture and the Catalan Association of Circus Professionals. Today, when the work is at the final stages, it is published unfinished online to facilitate the public consultation.
