VII EAFT Terminology Summit. Speakers proposal and call for presentations for the open session

EAFT, in collaboration with TERMCAT, is organizing the [Seventh Terminology Summit in Barcelona](#) on November 27-28, 2014.

The overall topic for the summit is: **How does social networking affect terminology work?** In recent years social networks have burst into life, and into our work lives, too. Terminological work and its dissemination are no exception. This is why we have thought it would be interesting for the international terminology community to open a debate about the impact of social media on all spheres of terminology work, from research all the way through to dissemination.

There will be three sessions covering different subtopics. In each session there will be guest speakers, who at the end of the session will make up a panel and answer some preprepared questions, followed by a general discussion.

EAFT members are asked to suggest some speakers suitable for these sessions 1, 2 and 4. We will appreciate very much your collaboration.

There will be also an open session (session 3) addressed to those professionals who want to share their experiences on the general topic proposed in a set time limit, e.g. exactly seven minutes. Find further information on the site.
